

Group Calls Through Doxy.me Up to 10 Devices Supported

You will notice that under the client's name in the patient queue it indicates which room the client is in. See below.

VPTFM is for 1-on-1 sessions. **VLGS** is for Group sessions.

PATIENT QUEUE

	Paula /virtualsessi...	33m	⋮
	Sylvia Lewis /virtualsection	5m	⋮
	Jenn /brookdale	<1m	⋮
	Jenn /allegrosout...	<1m	⋮

/virtualsection is the shared room for VPTFM.

/brookdale is for the VLGS for Brookdale

/allegrosouthtampa is for the VLGS for Allegro

If you are leading a **Large Group Session**, please **ONLY** start calls for clients that log into that link for the group that you are leading, follow the steps below.

If you are asked to **sit in on a session**, you will need to log in as a patient through the link in the calendar invite. If you are the coach that is **leading the session that is being shadowed**, you will then need to add the person who is sitting in on the session to the call by following the steps below.

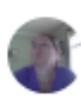

Group Calls Through Doxy.me Up to 10 Devices Supported

1. Group Calls

- a. Start call with first client, as normal
 - i. Select "Start Call" the blue button next to their name in the queue
 - ii. See other members in patient queue, select "start call" while in the current call.
